14th World Buffalo Congress
Sorrento (NA), 28-30 October 2026

WBC 2026 List of Posters

(Poster Number, Presenting Author, Title)

P-1 **Marzia Albenzio** – "*SWATH-MS-based proteome profiling of buffalo milk under heat stress*"

P-2 **Syed Yawar Ali** – "*From Commodity to Premium "Unblocking the Global Potential of Buffalo Milk""*"

P-3 **Maria Chiara Alterisio** – "*Mastitis in Mediterranean Buffaloes (Bubalus bubalis): Performance of the California Mastitis Test and Electrical Conductivity for Udder Health Assesment.*"

P-4 **Nitira Anakkul** – "*Semen parameters of a cloned swamp buffalo (Bubalus bubalis) bull produced from somatic cell nuclear transfer*"

P-5 **Chiara Arcuri** – "*Advancing Buffalo Genomics: Evaluation of a Next-Gen High-Density SNP Chip for Biodiversity Studies*"

P-6 **Anna Balestrieri** – "*Microbiological and Oxidative Characterisation of Buffalo and Cow Dairy Products: correlation between Lactic acid bacteria, Lipid degradation and Electronic Nose Data*"

P-7 **Supree Baosingsauy** – "*Socioeconomic impact of Institu Conservation of Thai Swamp Buffalo among Smaller holder Farmers in Thailand*"

P-8 **Pietro Baruselli** – "*Use of progesterone associated to the Ovsynch protocol and delay in the application of PGF2α for ovulation synchronization and TAI in buffaloes during the nonbreeding season*"

P-9 **Pietro Baruselli** – "*Oxytocin treatment or additional dose of prostaglandin F2a at timed-AI failed to improve fertility in buffaloes synchronized during the nonbreeding season*"

P-10 **Jesus Berdugo** – "*The effect of not milking at the end of lactation on weaning weight and the economy of a buffalo herd.*"

P-11 **Umberto Bernabucci** – "*Impact of robotic milking on feeding behaviour of Italian Mediterranean dairy buffaloes*"

P-12 **Stefano Biffani** – "*Genomic Selection: New Opportunities for the Italian Mediterranean Buffalo breeding*"

P-13 **Francesco Bonavolontà** – "*Education and Development of Emerging Profiles with Relevant Artificial Intelligence Skills forthe Improvement of the Buffalo Dairy Supply Chain*"

P-14 **Navarat Boonpila** – "*The Identity of the Thai Buffalo and the Design of Khid Fabric Patterns for Contemporary Product Development: A Case Study of the Ban Sa Kaeo Enterprise Group, Ban Dung Subdistrict, Udon Thani Province.*"

P-15 **Antonio Borghese** – "*Milkability in Mediterranean Italian Buffalo in comparison with other ruminants*"

P-16 **Ada Braghieri** – "*Bridging Tradition and Welfare: Opportunities for Cow-Calf Contact (CCC) via Maternal and Foster Rearing in Italian Water Buffalo Farming*"

P-17 **Julia Brenmoehl** – "*Functional analysis of the IGF-system in buffalo milk*"

P-18 **Julia Brenmoehl** – "*Comparative analysis of thyroid regulation in Bubalus bubalis and Bos taurus*"

P-19 **Alberto Brugiapaglia** – "*The use of lipid indices to assess the nutritional quality of Italian Mediterranean Buffalo and Friesian meat*"

P-20 **Gianpaolo Bruni** – "*Cases of abortion related to Chlamydia pecorum in Mediterranean water buffalo (Bubalus bubalis) from central Italy*"

P-21 **Carlos Alberto Calles Navas** – "*Diversification and its economic impact on dual-purpose livestock farming with Bubalus bubalis in the low tropics*"

P-22 **Maria Concetta Campagna** – "*Occurrence of Aflatoxin M1 contamination in Southern Lazio (Italy) water buffalo milk: a long-term monitoring study*"

P-23 **Wasupol Chatan** – "*Concurrent Eosinophilia, Basophilia, and Regenerative Anemia: A Characteristic Hematological Pattern in a Cohort of Thai Swamp Buffaloes*"

P-24 **Wasupol Chatan** – "*Hematological Indicators of Systemic Inflammation and Anemia in Thai Swamp Buffaloes: Insights into Leukocyte and Platelet Dysregulation*"

P-25 **Antonella Chiariotti** – "*Buffalo Farming and Dairy Innovation Transfer: An Italian-Cuban Cooperation Framework for Sustainable Local Food Systems*"

P-26 **Antonella Chiariotti** – "*Impact of different cheese-making processes on the composition and techno-functional properties of powdered buffalo whey protein concentrates*"

P-27 **Roberta Cimmino** – "*TransformDairyNet project: A European effort to promote Cow-Calf and Buffalo-Calf Contact dairy production systems*"

P-28 **Angelo Citro** – "*Thermodynamic analysis and stability of vitamin E nanocomplexes with buffalo whey proteins*"

P-29 **Angelo Citro** – "*Buffalo milk custards as functional matrices: impact on the bioaccessibility of encapsulated antioxidants during in vitro digestion*"

P-30 **Michela Contò** – "*Enhancing PUFA n-3 Content in Buffalo Meat through Linseed-Supplemented Diets*"

P-31 **Lorenzo Costabile** – "*Developing skills for multifunctional buffalo farming: the MYFARM European training approach*"

P-32 **Gustavo Crudeli** – "*Measuring progesterone and cortisol levels during follicular wave presynchronization in fixed-time artificial insemination programs in water buffaloes (Bubalus bubalis).*"

P-33 **Nunzia D'Onofrio** – "*Dietary strategies to enhance buffalo mozzarella nutraceutical properties and endothelial resilience in vitro*"

P-34 **Yasmine Dadi** – "*Occurrence and molecular characterization of methicillin-resistant Staphylococcus aureus and ESBL-producing Escherichia coli in bulk tank milk from water buffalo farms in southern Italy*"

P-35 **Emanuele D'Anza** – "*Pedigree and heritability in the Italian Mediterranean Buffalo: preliminary results on key milk traits and implications for breeding strategies*"

P-36 **Esterina De Carlo** – "*Correlation between intra-vitam diagnostic tests and post-mortem evidence of Mycobacterium bovis infection in Mediterranean buffaloes (Bubalus bubalis).*"

P-37 **Sergio Esposito** – "*Assessment of risk factors for neonatal diarrhoea in dairy Mediterranean buffalo calves*"

P-38 **Sergio Esposito** – "*Comparing welfare assessment protocols for dairy buffalo*"

P-39 **Chiara Evangelista** – "*Effects of dietary energy liquid supplementation on lactating buffaloes under hot conditions on milk production performance in dairy buffaloes*"

P-40 **Salvatore Fioriniello** – "*Genomic DNA methylation changes in the ruminal wall of dairy buffaloes versus dairy cattles*"

P-41 **Tiziana Galli** – "*Characterizing the quality and hygienic-sanitary parameters of water buffalo bulk milk in the Lazio Region (Italy)*"

P-42 **Francesca Garofalo** – "*Buffalo "burrata" produced in the province of Salerno: a comparison of different production technologies*"

P-43 **Mayra Gómez** – "*Genomic regions associated with teat-related defects in Italian Mediterranean Buffalo*"

P-44 **Giampiero Grossi** – "*Long-term GreenFeed monitoring of enteric methane emissions in lactating buffaloes: practical challenges and emission patterns*"

P-45 **Nirawan Gunun** – "*Utilization of yeast fermented liquid (YFI) in concentrate on feed intake and blood biochemical parameters of swamp buffaloes*"

P-46 **Danilda Hufana-Duran** – "*Activation of Inactive Water Buffalo Bulls Through L-Carnitine Treatment: Effects on Libido and Testosterone Levels*"

P-47 **Miriam Iacurto** – "*Body condition score and liveweight automation perspective in lactating Mediterranean buffaloes*"

P-48 **Martina Iovino** – "*From Skills Gaps to Future Competences: The VITAL Approach for a Sustainable and Digital Livestock Sector*"

P-49 **Mehar Khatkar** – "*AI-Powered Application for Predicting pH from Indicator Strip Images as an Example of Biosensor Application in Buffaloes*"

P-50 **José Luis Konrad** – "*Evaluation of the effect of follicular wave presynchronization with different presentations of progesterone on pregnancy rates in fixed-time insemination programs in water buffaloes (Bubalus bubalis).*"

P-51 **Michal Kosior** – "*Relationship between reproductive tract ultrasonographic morphometry and fertility outcomes in buffalo heifers.*"

P-52 **Sukanya Leethongdee** – "*Field Implementation of GnRH/CIDR-Based Synchronization Protocols for Fixed-Time Artificial Insemination in Swamp Buffaloes: A Large-Scale Study in Northeast Thailand*"

P-53 **Sukanya Leethongdee** – "*Prevalence of Hematological Dysregulation in a Cohort of Thai Swamp Buffaloes: Insights into Red Blood Cell Morphology, Leukocyte Distribution, and Platelet Characteristics*"

P-54 **Ling Li** – "*Taurine Content in Buffalo Milk versus Holstein Cow Milk: Compositional Superiority, Molecular Mechanisms, and Processing Stability*"

P-55 **Xiang Li** – "*Lignin Degradation Capability and Pathways of Aspergillus fumigatus Isolated from Buffalo Rumen*"

P-56 **Aixin Liang** – "*Neddylation inhibition by MLN4924 modulates cell proliferation and secretory function in buffalo mammary epithelial cells*"

P-57 **Aristotelis Lymberopoulos** – "*Phenotypic Characterization of Greek Indigenous Buffalo*"

P-58 **Eugenio Maldonado H.** – "*Effect of age at first calving on productive and reproductive performance in the first lactation of murrah buffalo in an improved system in Venezuela.*"

P-59 **Eugenio Maldonado H.** – "*Comparison of two systems of buffalo production in Zulia state Venezuela*"

P-60 **Pablo Maldonado Vargas** – "*Regenerative water buffalo production in the NEA region, Argentina: holistic management for productive efficiency and ecosystem restoration*"

P-61 **Pablo Maldonado Vargas** – "*Water buffalo production and territorial development in Argentina: productive concentration and value chain limitations*"

P-62 **Luca Masiello** – "*Bacterial DNA in follicular fluid: a possible player in buffalo oocyte competence?*"

P-63 **Tri (Vitri) Satya Mastuti Widi** – "*Environmental Services and Conservation Challenges of Swamp Buffalo in Diverse Agroecosystems of Indonesia*"

P-64 **Felicia Masucci** – "*Validation of an ear-tag accelerometer for monitoring rumination and feeding behaviour in dairy buffaloes*"

P-65 **Muhammad Usman Mehmood** – "*Effect of timing for GnRH administration after CIDR removal on ovulation, corpus letuem development, and pregnancy in recipient embryo transfer buffaloes*"

P-66 **Antonio Minervino** – "*Serum biochemical profile of cattle and buffalo fed whole shelled corn or conventional concentrate diets*"

P-67 **Antonio Minervino** – "*Contrasting ecological drivers of Rhipicephalus microplus and Amblyomma spp. infestation in Amazon livestock*"

P-68 **Pattaya Napasirth** – "*Growth Performance and Feed Intake of Lao Native Buffaloes Fed Fermented Total Mixed Ration (FTMR) Inoculated with Lactobacillus plantarum*"

P-69 **Radena Nenova** – "*Venous blood gas parameters and acid-base values in newborn hypoglycemic buffalo calves with added sweet sorghum*"

P-70 **Ioana Nicolae** – "*Growth rates and health of un-weaned dairy buffalo calves in partial cow-calf contact system*"

P-71 **Thanapol Nongbua** – "*Field Fertility Rates of Thai Swamp Buffaloes Following a Scheduled Synchronization Program: Insights from the Udon Thani Livestock Development Project, Thailand*"

P-72 **Pencho Penchev** – "*Oligothelia in two buffaloes with different effect on morphology, productive and reproductive performance – a case report*"

P-73 **Paola Pepe** – "*Intestinal infections by zoonotic protozoa and associated risk factors in water buffalo farms in southern Italy*"

P-74 **Gladis Isabel Rebak** – "*Nutritional characteristics of low-moisture buffalo meat*"

P-75 **Gladis Isabel Rebak** – "*Milk quality from Mediterranean and Murrah buffalo raised in wetlands of Corrientes, Argentina.*"

P-76 **Simona Rinaldi** – "*Total fatty acids in buffalo and goat cheeses: a comparison of some niche dairy products*"

P-77 **Rafael Emilio Rincón M.** – "*Genetic evaluation of the age of first calving in murrah buffaloes in some states of Venezuela.*"

P-78 **Rafael Emilio Rincón M.** – "*Genetic and environmental factors on birth weight in buffalo in the Lake Maracaibo basin. Venezuela.*"

P-79 **Daniela Roldán** – "*Genetic and genomic improvement program of Murrah buffalo at Fortaleza farm, Colombia*"

P-80 **Sonia Alejandra Romera** – "*Immunogenicity and DIVA capability of a BoHV-1ΔgEβgal marker vaccine for the control of bovine and bubaline alphaherpesviruses in mixed herds*"

P-81 **Emilio Sabia** – "*Replacing traditional feed ingredients with by-products: implications for carbon footprint and water scarcity in dairy buffaloes*"

P-82 **Zadieshar Sanchez** – "*Technical Efficiency and Technology Adoption in Dairy Buffalo Milk Production in Central Luzon, Philippines*"

P-83 **Caroline Sawyer** – "*Cultural Representations of Water Buffaloes in India: Implications for Marketing and Product Development*"

P-84 **Dr.Sukhhermandeep Singh Shergill** – "*Impact of Murrah progeny testing project on Punjab farmers.*"

P-85 **Márcio Sturaro** – "*Analysis of colostral antibodies to herpesvirus 1 and 5 in murrah buffalo calves*"

P-86 **Márcio Sturaro** – "*Stimulating Artisanal Cheese Production in Family Farming*"

P-87 **Ika Sumantri** – "*Contrasting Ecosystems Shape Feed Resource Biodiversity for Swamp Buffalo: Evidence from Swamp area of South Kalimantan, Dry land of Tapanuli, and Mountain Areas of Gayo*"

P-88 **Ika Sumantri** – "*Ethnosilvopasture: A Blueprint for Sustainable Buffalo Farming Where Local Tradition Meets Modern Science*"

P-89 **Lucia Trapanese** – "*Historical description of buffalo lactation curve*"

P-90 **Mustafa Uğurlu** – "*Effect of dam age and some climatic conditions on lactation milk yield in Anatolian Buffaloes*"

P-91 **Juan Pablo Uzcátegui-Varela** – "*Descriptive sensory profile of firm yogurt made from buffalo (Bubalus bubalis) milk in combination with different gelatin concentrations*"

P-92 **Juan Pablo Uzcátegui-Varela** – "*Assessment of serum vitamin D (25-hydroxycolecalciferol) concentrations in lactating buffaloes adapted to the humid tropic of the southern Lake Maracaibo Region, Venezuela*"

P-93 **Anibal Vercesi** – "*Association of kappa casein A and B alleles with milk production in buffaloes in Brazil*"

P-94 **Haiying Zheng** – "*Effect of P21 Inhibitors on the Development of IVF Water Buffalo Embryos*"

P-95 **Fatemeh Derisavi** – "*The Status of Water Buffalo and its Marketing in Iran*"
